GenAI-Powered Data Analytics Job Simulation — Forage

Sep 2025 – Oct 2025

- Ran end-to-end **EDA** on financial loan datasets, surfacing delinquency patterns and credit-risk signals.
- Delivered structured **data storytelling report** with visualizations adopted into the credit-risk recommendation workflow.

PROJECTS

MAVI — Memory-Augmented Virtual Intelligence

2026

Python, Ollama (llama3.2:3b), RAG, SQLite, OCR

- Architected a **fully offline, privacy-first AI assistant** with zero cloud dependency using Ollama for local LLM inference; built **RAG pipeline** with semantic search for document Q&A.
- Integrated **SQLite persistent memory** and OCR so the agent retains context across sessions and reasons over scanned documents.

Flipkart Big Billion Days & Banking Analytics Dashboards

2025

Python, Pandas, SQL, Power BI, DAX, Matplotlib

- Analyzed category-wise and region-wise Flipkart sales; surfaced **3 actionable insights** on pricing via SQL and built **interactive Power BI dashboards** with KPI drill-down.
- Performed end-to-end EDA on banking data – built dashboards tracking total deposits, loans, and top customer segments use DAX.

Portfolio with AI Chat

2025–2026

HTML, CSS, JavaScript, Gemini API, AI APIs

- Built TRAVALLY – a Bihar tourism site with **interactive maps and AI chatbot** for travelers ([Live Demo](#)).
